

FDB-6 SUPER AUG FORMULA

FOR USE IN OUTDOOR GREASE INTERCEPTORS

ADVANTAGES:

The multi-strains of microbes contained in BioStim's FDB-6 freeze dried powders are designed to digest fats, oils, grease, starches, and sugars. FDB-6 is highly concentrated. It is to be used in outdoor grease interceptors as a monthly shock treatment. It is not sensitive to wide temperature variations.

BIO FRIENDLY

NON-PATHOGENIC
NO CHEMICALS, ENZYMES OR SURFACTANTS
100% MICROBIAL
NON-CORROSIVE
NON-FLAMMABLE
NON-TOXIC

USAGE

Mix with 5 gallons water in a plastic bucket.
Remove manhole cover with T-Lift.
Agitate the outdoor grease interceptor with a stir rod or garden hose to aerate.
Pour the premixed bucket of Super Aug into each chamber (manhole) of the outdoor grease interceptor in even amounts.
Agitate again.
Replace the manhole cover.
Repeat monthly/

Environmentally safe formulations have always been a priority with BioStim. Our bioremediation services are performed with 100% non-pathogenic BioStim microbial products.
